

VPD GOVERNMENT SOLUTIONS

Integrity | Excellence | Teamwork | Respect

VPD, a VA verified SDVOSB, has been delivering best-in-class solutions to a wide variety of clients for ten years. VPD is passionate about being a great place to work and fostering lasting relationships with our clients, our communities, and our employees.

DATA ANALYSIS AND GOVERNANCE

Our Approach

VPD understands that managing and protecting our clients' data assets will increase their overall efficiency, accountability, and success. Our team develops data capacity and analytics for decision making and consults on data visualization in addition to advising on the ethical implementation of federal data policies and procedures. VPD's commitment to successful data management enables our clients to pinpoint areas of concern, make well-informed decisions, and enact necessary changes.

Data Analysis and Governance Capabilities

- Provide data harvesting, visualization, analysis, protection, and cataloguing for large amounts of data and metadata
- Leverage R programming, PowerBI, burndown charts, and native client tools to aggregate data and provide actionable programmatic performance improvement recommendations
- Ensure data complies with governmental mandates and regulations

IMPACTFUL RESULTS

- Develop **tools, templates, and procedures** to improve efficiency and effectiveness in data security and privacy approval processes, data systems, and applications.
- Facilitate several ATO processes annually.
- Leverage **R Programming** to sort and analyze extreme data sets.

- Leverage data visualization techniques to produce dynamic **dashboards**.
- Collect and assess data related to federal acquisition programs valued in excess of **\$560M** annually.
- Catalog and sort through more than **4,400 procurement actions** each with hundreds of data points to produce accurate dashboard decision-making tools.

- Designed and manage the Centralized Funding Tool, linking two large project databases into one pivot table for client evaluation, with a sum total of **\$49M** in projects.
- Conduct a quarterly audit of the TRIRIGA database and the **12,366 opportunities** that are contained within.
- Analyze **12,000** unfunded infrastructure improvement requirements valued at over **\$1.2B**.
